2016 Housing Needs Assessment

≡ Quick Facts

Bexar County Ryan White Housing Needs Assessment Survey Final

90%

90.1% were living in homelessness within the past three years.

2/3

Two out of 3 reported they had no support network to remain housed... *one incident away from homelessness.*

2/3

Nearly two-thirds (62.7%) are not employed at all.

40%

The most commonly received benefits include Ryan White (40.1%), SNAP (32.9%), Medicare (24.8%), and Medicaid (20.5%).

1/2

Nearly half (48.4%) claimed to have a long-term and serious medical condition, *in addition to HIV/AIDS, that disable them.*

1/3

One-third of respondents (32.3%) reported problems paying rent/mortgage over the preceding three months.

17%

17.7% reported zero household income from any sources.

The most common barriers to obtaining housing that respondents reported were poor credit history (32.7%), cost of housing/insufficient income (29.2%), and a lack of employment (15.45%).

Bexar County Ryan White Housing Needs Assessment Survey: Preliminary Report.

Bexar County Ryan White Housing Needs Assessment Survey

FINAL REPORT

September 19, 2016

INTRODUCTION

The Housing Needs Assessment (HNA) Survey was conducted during the months of March and April in 2016. The survey instrument was designed in collaboration with the Planning Council of the Bexar County Department of Community Resources, which oversees the Ryan White Program. The primary purpose of the survey was to identify the current housing needs of program participants.

The survey was designed using Survey Monkey with both English and Spanish versions made available to increase the response rate from Spanish speakers with limited English proficiency.

Planning Council members volunteered to conduct outreach and assist eligible program participants with responding to the survey. Volunteers recorded participant responses, which were then entered into Survey Monkey for tabulation and analysis. A total of 322 responses (English and Spanish combined) were received, tabulated and analyzed.

This final report includes a summary of survey findings and conclusions from the analysis. More detailed information on the survey responses, including responses to all open-ended questions, is included in the appendices.

CONCLUSIONS

Housing instability is the primary characteristic revealed for the population surveyed. Fully 70% of the respondents live alone and are solely responsible for their housing expenses. Two-thirds reported they had no support network to remain housed, further indicating they could be one incident away from homelessness. This scenario was borne out by the prevalence of respondents who reported living in places unfit for human habitation for all or part of the preceding 12 months as well as those who reported on the lack of permanence of their living arrangements (“unknown”, “days” or “months”). However, at the time of the survey, the majority of the respondents were living in a private housing unit with their name on the lease (33.5%), with a family/friend and assisting with the rent (15%), or in a house, condominium or mobile home they owned (9.6%).

The location and condition of the housing occupied by the population surveyed indicates many are living in unsafe neighborhoods and in substandard housing. When asked about the reason for which they might move, respondents reported drug activity, violence, street harassment, gangs and prostitution were present at their current locations. Housing unit problems included bed bugs, mold/mildew, incomplete kitchens and bathrooms, water leaks, broken windows, and a lack of running water, among other things.

A **lack of adequate income** is clearly related to their housing instability, regardless of the source of income. Nearly two-thirds reported they were unemployed and more than half reported receiving less than \$100/month from any source of income. However, when all sources of income are tallied from all persons residing in the household, higher incomes were reported. More than one-third of respondents reported total monthly household income between \$701 and \$1,400, and another 18.7% reported income of more than \$1,400. This suggests greater housing stability can be achieved when living with one or more other individuals who have some source of income. With an average amount of \$395 in monthly public assistance for housing expenses received by only 40 respondents, other income sources are at play. Still, one-third of respondents reported having trouble staying current with rent payments for the preceding three months.

Although more than 37% of respondents were aware of housing assistance through public housing authorities, only 8.7% were receiving services and none reported being on a waiting list for public housing or Housing Choice Vouchers. This could be the result of excessively lengthy or even closed waiting lists. Less than 5% reported being on a waiting list for each of transitional housing, HOPWA, and Shelter Plus Care.

Other services identified as necessary to maintain housing and reported by recipient respondents include medical care, monthly rental assistance, monthly utility assistance, food assistance, case management, mental health services, counselling, transportation and support groups.

Financial reasons were the primary challenges to finding and securing housing. Respondents reported poor credit history (32.7%), the cost of housing/insufficient income (29.2%) and a lack of employment (15.4%) are the three most common barriers to obtaining housing.

A **lack of adequate housing assistance** was identified, both in terms of locating housing and paying for housing. More than 25% of respondents reported financial assistance for moving and rent/utility deposits would be helpful, as would a list of potentially available rental units (24.4%), assistance with completing applications (12.2%), assistance with landlords (10.9%) and finding clean and sober housing (6.4%).

SURVEY FINDINGS

GENERAL CHARACTERISTICS

(Q1, Q2, Q3, Q4, Q5, Q6, Q15, Q23)

- The typical survey respondent was an HIV-positive Hispanic male, 35 or older, living alone in a one-person household in Bexar County, receiving Ryan White services and paying an average of \$655/month for rent or mortgage and utilities.
- Nearly half of the respondents (48.1%) live in single-person households (i.e., they live alone); another one-third (32.9%) live in two- and three-person households.

HOUSING CHARACTERISTICS

(Q6, Q7, Q8)

- Of the 132 homeless respondents who are in need of housing, 62.9% are in two-person households and another 22% are in three-person households. This effectively increases the number of homeless individuals to 245 among these 113 households.
- Fully 70% of the respondents consist of one-person households and are responsible for their household expenses with no one to help share the costs.

HOMELESSNESS AND HOUSING INSTABILITY

(Q9, Q11, Q12, Q16, Q17, Q18, Q19, Q20, Q21, Q22, Q31, Q32, Q33)

- Nearly two-thirds of the respondents reported they had no support network to remain housed, or stated they didn't know if they had a support network.
- Nearly one-third of respondents (31.4%) lived with family or friends at sometime within the last three years. Other alternative situations included living in:
 - A vehicle, bus, train or abandoned building (18%)
 - Transitional housing (14%)
 - Emergency shelter (13%)
 - Jail or prison (10.2%)
 - A hotel or campground (9%)
 - A hospital, nursing home, mental health facility (7.8%)
 - A garage, backyard, porch, shed or driveway (4.7%).
- More than 17% of respondents reported they lived in places unfit for human habitation for part or all of the preceding 12 months.
- It appears that many respondents' housing situations improved, to varying degrees, once they began receiving Ryan White services or other benefits. When asked about their current residence in March or April of 2016, more respondents reported living in better housing conditions than in the preceding 12 months. These included the following:
 - 33.5% resided in a private housing unit with their name on the lease
 - 15% reported living with a family or friend and assisting with the rent
 - 11.5% were living with a family or friend but paying no rent
 - 9.6% were living in a house, condominium, or mobile home that they owned
 - 6.5% were living in a halfway or transitional house for a two-year period and were paying rent.
- However, 8 respondents (2.5%) reported they were living on the street, in a car, or in some other alternative situation.
- The permanence of living situations also varied from days (14.3%) to months (41%) and years (46.3%). For about half the respondents, the potential for remaining in their current situation is unknown (34.2%) or highly unstable (3.7% responded they could only remain there for "days" and 12.4% could stay for "months").
- While more than half of all respondents (56.8%) reported having no problems with their current residence, others reported experiencing one or more of the following in their unit:

- Bedbugs, ants, etc. (16.8%)
- Mold, mildew (10.6%)
- Incomplete kitchen (7.8%)
- Water leaks (7.8%)
- Lack of heat (7.4%)
- Lack of smoke detectors (6.8%)
- Broken windows (6.2%)
- No access to a kitchen (5.9%)
- Lack of running water (4%)
- Lack of indoor bathroom (3.1%)
- External doors without locks (2.8%)
- Respondents reported they were thinking of moving due to one or more of the following reasons:
 - Drug activity (14.6%)
 - Noise (10.9%)
 - Violence (10%)
 - Street harassment, people hanging out (8.3%)
 - Stigma over my HIV (8.1%)
 - Gangs (6.5%)
 - Prostitution (6.2%)
- Just over 50% of respondents reported having moved two times or more in the preceding three years, but fully 30% reported they had not moved at all during the same period.
- About 20% reported they had been evicted within the preceding three years for non-payment of rent or another reason.
- Reasons for moving the last time included:
 - Couldn't afford the rent or mortgage (16.1%)
 - To establish my own household (10.9%)
 - To move to a better neighborhood (10%)
 - A change in relationship status (7.1%)
 - To be closer to family and/or friends (7.1%)
 - My name came up on a waiting list for assisted housing (3.7%)
 - Work-related (2.5%)

INCOME AND EMPLOYMENT

(Q11, Q12, Q14)

- Nearly two-thirds of respondents (62.7%) were not employed while 18.3% reported being employed on a full-time basis. More than half (54%) reported receiving less than \$100/month total from any type of employment.
- More than one-third (36.7%) reported a total monthly household income between \$701 and \$1,400. Notably, 17.7% reported zero household income from any sources. Another 18.7% reported total monthly household income of greater than \$1,400.

MAINTAINING HOUSING

(Q24, Q25, Q26, Q27, Q28, Q29, Q30)

- 19.9% of respondents pay less than \$500 in monthly rent or mortgage plus utilities; another 18.6% pay between \$500 and \$799. Still another 23.4% pay \$800/month or more for rent/mortgage and utilities. The average amount paid was \$655.
- Three-quarters of respondents reported they receive no financial assistance from a government or other entity to pay for their monthly housing expenses. Of the 40 respondents who receive financial assistance, the average amount is \$395.
- One-third of respondents (32.3%) reported problems paying rent/mortgage over the preceding three months, while half reported no problem.
- Public housing authority units and Housing Choice Vouchers were the most well-known types of public housing assistance among respondents (37.6%). HOPWA was also recognized by slightly more than one-fifth of respondents (21.4%) as was transitional housing (16.1%). However, only a fraction of respondents reported being on the waiting lists for any of these as indicated by the following:
 - Transitional housing: 4.7%
 - HOPWA: 4.7%
 - Shelter Plus Care: 0.6%
- Moderately more reported they received any of these services:
 - Residing in AIDS-dedicated housing: 15.2%
 - PHA/Housing Choice Voucher: 8.7%
 - HOPWA: 3.7%
 - Shelter Plus Care: 1.6%

OBTAINING HOUSING

(Q34, Q35, Q36, Q37, Q38, Q39, Q40, Q41)

- One-bedroom units are in greatest demand with 41.6% of respondents reporting a need for them, and two-bedroom units were also in high demand at 25.8%.
- The majority of respondents (51%) prefer a house or duplex while nearly equal percentages prefer to have their own apartment in a small building (36.6%) or their own apartment with cooking and bathroom facilities in a large building (36%). Permanent supportive housing is desired by 11.2% of respondents while 8.4% prefer to have their own room in a house shared with others.
- The majority of respondents also wish to live in San Antonio with nearly half of these having a specific neighborhood in mind.
- There were several situations that were identified as reasons for respondents to turn down a place to live, including:
 - Rules that forbid overnight guests (27%)
 - Rules that forbid pets (23.6%)
 - Rules that forbid a live-in partner (22.4%)
 - Sexual orientation of housemates (14.6%)
 - Not being able to choose your housemates (12.1%)

- Alcohol and drugs are permitted (10%)
- Rules prohibiting alcohol consumption (9.3%)
- AIDS-only housing (9%)
- Cultural/language barriers among housemates (6.8%)
- Rules prohibiting drug use (5.6%)
- Respondents identified several services they found to be helpful in securing their current residence, including:
 - Being provided with a list of potentially available housing units (15.8%)
 - Being provided with financial assistance for moving and rent/utility deposits (10.9%)
 - Assistance completing applications (8.4%)
 - Assistance with landlords (8.4%)
- By comparison, several of these same services were identified by other respondents as ones which would have been helpful if they had been offered:
 - Being provided with financial assistance for moving and rent/utility deposits (25.4%)
 - Being provided with a list of potentially available housing units (24.4%)
 - Assistance completing applications (12.2%)
 - Assistance with landlords (10.9%)
 - Clean and sober housing (6.4%)
- Similarly, some residents found the following to be helpful:
 - Housing lists from PHAs (7.4%)
 - Informational materials from case managers (6.1%)
 - Bulletin boards with information on housing unit availability (3.5%)
- Respondents identified the following challenges to be the most difficult when trying to secure their current residence:
 - Poor credit history (32.7%)
 - Cost of housing/insufficient income (29.2%)
 - Lack of employment (15.4%)
 - Location of available housing (14.2%)
 - Criminal record/recently released offender (13.8%)
 - Transportation problems (12.3%)
 - Being single (10.4%)
 - Having pets (9.1%)
 - Previous evictions (6.6%)
 - Health problems, including mental illness and/or disability (5.7%)

DENIAL OF HOUSING

(Q42, Q43)

- The three most common reasons reported by respondents for being denied housing were insufficient income/lack of money (15.4%), having a criminal background (11%), and HIV status (8.2%).
- Property managers and landlords were cited by 17% of respondents as the entity responsible for unfair denial of housing, in addition to a government agency (6%) and a community or non-profit organization (3.8%).

HEALTH OF RESPONDENTS

(Q10, Q46, Q47, Q48, Q49)

- Nearly half of the respondents reported they have conditions in addition to HIV/AIDS that disable them: 17.1% reported post-traumatic stress disorder, 15.5% reported a physical disability and 14% reported a learning disability.
- 43% of respondents reported drug use or substance abuse.
- 15.1% reported they left their last residence due to physical/verbal threats or abuse.
- 47.1% have been convicted of a crime:
 - For 38.8% this involved a felony
 - For 36.7% this involved a misdemeanor
 - And for 21.8%, it involved both a felony and a misdemeanor

BENEFITS AND SERVICES RECEIVED

(Q13, Q44, Q45)

- The most common public benefits received by respondents are Ryan White services (40.1%), SNAP (32.9%), Medicare (24.8%), Medicaid (20.5%), SSI (17.1%), SSDI (17.1%), and SDI (10%).
- Nearly half of all respondents (48.3%) are receiving medical care as well as case management. Counseling is being provided to 32.9% and food assistance is being provided at virtually the same rate. Assistance with mental health services (26.1%) and transportation (17.7%) are also common.
- In terms of the services identified as most important for maintaining stable housing, respondents identified the following:
 - Medical care (41.3%)
 - Monthly rental assistance (36.5%)
 - Monthly utility assistance (32.7%)
 - Food assistance (32.1%)
 - Case management (24%)
 - Mental health services (17.3%)
 - Counselling (17%)
 - Assistance with transportation (13.5%)
 - Support group (10.9%)

APPENDIX A: Preliminary Report

Bexar County Ryan White Housing Needs Assessment Survey

Preliminary Report

June 1, 2016

INTRODUCTION

The Housing Needs Assessment (HNA) Survey was conducted during the months of March and April in 2016. The survey instrument was designed in collaboration with the Planning Council of the Bexar County Department of Community Resources, which oversees the Ryan White Program. The primary purpose of the survey was to identify the current housing needs of program participants.

The survey was designed using Survey Monkey with both English and Spanish versions made available to increase the response rate from Spanish speakers with limited English proficiency.

Planning Council members volunteered to conduct outreach and assist eligible program participants with responding to the survey. Volunteers recorded participant responses, which were then entered into Survey Monkey for tabulation and analysis. This early report includes a summary of preliminary findings from the initial analysis. A more detailed analysis and report is also underway.

PRELIMINARY FINDINGS

- 72% of respondents are male
- Majority of respondents (62.1%) are 35 years of age or older
- Nearly half of respondents (48.1%) are one-person households
- Of the 132 respondents who identified as being homeless, nearly two-thirds (62.9%) indicated a need for housing for themselves and one additional person (i.e., a two-person household)
- 70% of respondents (224) are the sole source of income for paying their household expenses
- 56% of respondents (180) indicated they had no support network to help them stay housed; another 5.3% (17) did not know if they had a support network
- Nearly half of the respondents (48.4%) claimed to have a long-term and serious medical condition, in addition to HIV/AIDS, that disabled them
- Nearly two-thirds (62.7%) are not employed at all
- More than half (54%) have income of less than \$100 from any source
- The most commonly received benefits include Ryan White (40.1%), SNAP (32.9%), Medicare (24.8%), and Medicaid (20.5%)
- The majority of respondents (59.1%) are in households that receive \$1,050 or less in monthly income (all sources and all persons in household combined)
- 93.5% reside in Bexar County
- 90.1% were living in homelessness within the past three years
- 33.5% are currently living in private housing units with a name on a lease

- 74.2% have no other entity paying their housing costs
- 32.3% reported problems paying their rent or mortgage within the last three months
- The most well-known housing assistance includes Housing Authority/Section 8 (37.6%) and HOPWA (21.4%) but only 8.7% reported receiving Section 8 and only 3.7% reported receiving HOPWA
- 15.2% live in AIDS-dedicated housing
- Only 10% reported being on any waiting list for housing
- 37.3% reported moving once or twice in the last three years; 23% reported moving three times or more during the same period
- 11.8% reported being evicted for non-payment of rent within the last three years; another 8.1% were evicted for other reasons
- Main reasons for moving the last time they did included inability to afford rent or mortgage (16.1%), to establish a household (10.9%), and to move to a better neighborhood (10%)
- 41.6% reported needing a one-bedroom unit; 25.8% reported needing a two-bedroom unit
- The housing type most preferred included a house or duplex (51%), a unit in a small building (36.6%), and a unit in a large building (36%)
- Rules prohibiting overnight guests (27%), pets (23.6%) and live-in partners (22.4%) were the most commonly cited
- The most helpful services reported for securing their current residence included a list of apartments (15.8%) and assistance with moving and payment of first and last months' rent (10.9%); however, 28.9% reported receiving no assistance

OVERVIEW OF SURVEY RESPONSES

The following chart summarizes the responses, with additional comments, where appropriate, added. The number of respondents who did not reply to an individual question is indicated as the number of "skips". In most cases, the total number of responses (n=?) used to calculate the percentage is 322 unless otherwise noted.

APPENDIX B: PLANNING COUNCIL RECOMMENDATIONS

1. Planning Council Members and Community Stakeholders take part in the Bexar County's Charrette: Strategic Plan to Prevent and End Homelessness.
 - a. Bexar County is hosting a Charrette on January 10-11 & 13, 2017 to prepare Bexar County's Strategic Plan to Prevent and End Homelessness.
 - b. The Charrette (a community meeting) will allow for input from community stakeholders to address issues related to homeless prevention and homelessness. Seven community members participated in a steering committee which organized and prioritized key issues facing the homeless population in Bexar County. These issues will be discussed over a two-day period with local and national experts and members of the community. The data gleaned from Charrette week, coupled with local housing and homeless data will go into a final report that will be completed and released in February 2017.
2. Format and Print final Housing Matrix.
 - a. Format the matrix into a Housing Resource Guide.
 - b. Review information in the matrix and tailor it to the HIV Community.
 - c. Add the Housing Resource guide to the Resource Guide when it is updated.
3. Conduct a Planning Council, Consumer, Community Stakeholder Workshop regarding Housing 101, Budget 101, etc.
4. Conduct a Case Manager Training regarding the Housing Study Results, Housing First, and the new Housing Resource Guide.
5. HIV Planner to complete a once page fact sheet from the Housing Study results.
6. Conduct a Housing Summit for Case Managers, Providers, Community Stakeholders, Consumers, Planning Council, AA Staff, etc.

APPENDIX C: SURVEY RESPONSE TABULATIONS BY QUESTION

The following chart summarizes the responses, with additional comments, where appropriate, added. The number of respondents who did not reply to an individual question is indicated as the number of “skips”.

The reference Q# refers to the numbered question in the survey instrument.

Unusable responses such as “10%” when a dollar amount was requested are identified as “non-responses.”

The Housing Resource Guide

The San Antonio Area HIV Health
Services Planning Council 2017

Housing Resource Guide- San Antonio 2016

Acknowledgement

This guide is provided by the San Antonio Area HIV Health Services Planning Council, a Division of Community Health-Ryan White Program, Bexar County Department of Community Resources with funding through the Ryan White Part A, Part B & MAI grant from the U.S. Department of Health and Human Services.

The information provided in this guide is intended to be a resource for people with HIV/AIDS and their families. When considering services at any provider, please remember to contact the agency first to verify services, eligibility, referral criteria, hours of operation and any other pertinent information.

The Planning Council

The San Antonio Area HIV Health Services Planning Council was established in 1994. Its responsibility is to determine the needs of the HIV affected community within the San Antonio TGA and to develop priorities and set percentages of funds. The purpose of the Planning Council is to ensure the availability of quality comprehensive health and social services to individuals affected by the HIV epidemic. For more information about the San Antonio Area HIV Health Services Planning Council please contact the Planning Council Liaison by phone at 210-335-7056 or by mail at 233 N. Pecos, Suite 590, San Antonio, TX 78207.

Special Thanks

The San Antonio Area HIV Health Services Planning Council would like to acknowledge with much appreciation the crucial role of the Ryan White Staff and following community stakeholders who worked tirelessly to help make this Housing Resource Guide possible:

1. San Antonio Area HIV Health Services Planning Council Needs Assessment Committee Members
 - a. L. Bustamante, Planning Council Co-Chair
 - b. S. Manning, Planning Council Vice Chair
 - c. E. Flores, Needs Assessment Committee Chair
 - d. H. Benavides, Needs Assessment Committee Member
 - e. R. Garcia, Needs Assessment Committee Member
 - f. V. Lopez, Needs Assessment Committee Member
 - g. K. Collier, Needs Assessment Committee Member
2. Ryan White Part D Program Staff
 - a. A. Rodriguez
3. Center for Health Care Services Staff
 - a. J. Carrejo, Intern
 - b. K. Lozada, Intern

Housing Resource Guide- San Antonio 2016

The purpose of this guide is to provide an up-to-date listing of housing resources in the San Antonio area. Information was gathered from www.211texas.org, South Alamo Regional Alliance for the Homeless (SARAH), agency employees/websites, and San Antonio Housing Authority.

Emergency Shelters

Provides immediate, overnight, and/or temporary shelter up to 90 days.

Emergency Shelters are any facility, whose primary purpose is to provide a temporary shelter for the homeless in general or for specific populations of the homeless and which does not require occupants to sign leases or occupancy agreements.

Housing Resource Guide- San Antonio 2016

As of August 1, 2016 San Antonio has moved to a Coordinated Entry System for select *Transitional, PSH, and Rapid Rehousing Programs*. This new model allows for a centralized intake process for agencies and individuals.

Coordinated Entry is a new model implemented in San Antonio that matches individuals/families with the correct housing program; prevents people from calling multiple agencies trying to determine criteria; and a central intake assessment and waiting list will be more efficient for getting beds filled for agencies.

Individuals that are homeless and needing housing services will need to go in person to a HUB location to complete an entry assessment. The assessment will match the individual to a housing program they are eligible for and be automatically placed on the appropriate wait lists.

Current Coordinated Entry HUB Locations & Hours

Coordinated Entry Site	Address	Phone	Hours of Operation
Haven for Hope	1 Haven for Hope Way	210-220-2100	M-F 8:30-3:30
